

How to Access EduLastic Assignments For Students + Families

Students will use their district-provided devices for taking the assessments.

- 1) **Enter EduLastic:** Log into Schoology and click on the EduLastic Icon.

- 2) **Find Your Assignment:** Below is an example of what a student will see when they log into EduLastic. "Assignments" at the top of the page indicates that you are on the Assignment Dashboard. This is where you'll see any assignments given to you by your school.
- 3) **Starting Assignments:** You will see two assessments on the assignments tab -- one in English and one in Spanish. The tests are exactly the same and you should take the language that is most comfortable for you. Your teacher can provide more guidance. To begin, click the green START ASSIGNMENT button.
