

## How to Give an EduLastic Practice Test

We have a practice assessment designed to help your students get familiar with the types of questions they may see on the math benchmarks. The questions are not math questions, but encourage students to explore how the platform works and how to answer different types of questions.

Younger students will likely need to have the directions and questions read to them, so you may want to enable Text to Speech for the class, even if you don't plan to do that for the actual assessment. Of course parents can also help students with this practice assessment at home.

- 1) **Logon to EduLastic:** Log into Schoology and click EduLastic on the menu.
- 2) **Go to Test Library:** Find the menu on the left side and click on the Test tab.
